Dear Mr. Johnson,

If you can add any more details about the ex-intelligence officer in Panama during the '63-'65 problems, I would welcome it.

I understand that when Milteer was in Washington he worked on the construction of the Supreme Court Building.

I had not heard that he had died recently.

You ask if I believe Oswald was involved in any kind of plot.

Not consciously is my belief.

It is interesting that when he was young Milteer shot someone with a .22.

Sincerely,
